COMPANY OVERVIEW

Public Security Services (PSS) is an established Sydney-based security provider, operating since 2008. We deliver professional guarding and protective security solutions for corporate, government, diplomatic, commercial and construction environments across Sydney and New South Wales.

PSS understands that effective security requires more than placing a guard at a site. It demands the right personnel, strong supervision, clear communication and security arrangements designed around each client's individual requirements. We aim to become a trusted security partner rather than simply supplying guards.

SECURITY SERVICES

- Static Security Guards
- Corporate Security
- Diplomatic & Government Security
- Concierge & Access Control
- Commercial Property Security
- Construction Site Security
- Mobile Patrols
- CCTV Monitoring
- Event Security
- After-Hours & 24/7 Security

WHY ORGANISATIONS CHOOSE PSS

Established Experience

Operating since 2008 with long-term client relationships.

Responsive Management

Direct communication and fast response to changing requirements.

Professional Personnel

Selected for reliability, presentation and communication.

Tailored Security

Arrangements designed around each site's actual requirements.

Flexible Coverage

Day, night, weekend and 24/7 arrangements available.

Long-Term Partnership

A trusted security partner, not a guard supplier.

SECTORS WE SUPPORT

- Government & Diplomatic
- Banking & Financial Services
- Corporate Offices
- Property & Facilities Management
- Construction & Infrastructure
- Warehousing & Logistics
- Education
- Retail & Commercial
- Events & Hospitality

COMPLIANCE & ASSURANCE

PSS operates in accordance with NSW security industry licensing requirements. Security personnel are appropriately licensed. Public liability insurance, workers' compensation and work health and safety (WHS) documentation are maintained and available on request. A NSW Security Master Licence is held by the company. Capability statements, compliance evidence and references can be provided for procurement and tender processes.
